

Ph.D. Assistantship Available in Computer Engineering in Spring/Fall 2018

Prof. Bin Li in Computer Engineering at the Department of Electrical, Computer, and Biomedical Engineering at the University of Rhode Island (URI) is seeking applications for Ph.D. assistantship (covering tuition and around \$2000 stipend per month), starting from Spring/Fall 2018. The main research focus will be at the intersection of networks, optimization and learning, with applications to wireless networks, Internet of Things, data centers, and cloud computing.

For the new Ph.D. positions, we are particularly interested in highly-motivated students with a strong research background and capability.

1. A B.S. or M.S. degree in electrical engineering, communication engineering, computer science, control, or math.
2. Strong interest in math, especially in probability, optimization, and control.
3. Previous research experiences in communication networks, computer networks, algorithm, machine learning, signal processing, are preferred, but not required.

If you are interested, please send your CV and undergraduate/graduate transcripts to Prof. Bin Li at binli@uri.edu. Web site: <http://www.ele.uri.edu/faculty/binli/>

The University of Rhode Island (<http://www.uri.edu/>) is a leading flagship research university located in an idea place in New England area, being 1.5 hours from Boston and 3 hours from New York City. We have a very strong Electrical and Computer Engineering program, which was founded back in 1938 and now is the largest department in the College of Engineering. The ECE department includes numerous IEEE Fellows, National Science Foundation CAREER Award winners, top IEEE Transactions journal editors, most highly cited researchers in the world in engineering, and many others. **Our graduate program of computer engineering ranks #77 in US according to US News 2017.** More information can be found at the department website of <http://egr.uri.edu/ele/>
