BME 207 Introduction to Biomechanics Spring 2020

Course Content: Introduction to the physiology and engineering analysis of:
- the Standard Human
- rigid bodies in equilibrium (statics)
- hard and soft tissues
- mechanics of materials (stress and strain)
- beams, bones, and how they break

Instructor: Prof. Fred Vetter e-mail: vetter@ele.uri.edu
Fascitelli 319 phone: 401-874-5141

Classes: MWF 8:00 – 8:50 am, Bliss Hall 190
course web page: www.ele.uri.edu/faculty/vetter/BME207

Office Hours: drop-in anytime or by appointment

Prerequisites: MTH 142, PHY 204, and BIO 220 (may be concurrent)

Grade Distribution:
<table>
<thead>
<tr>
<th>Grade</th>
<th>Quizzes 5%</th>
<th>Exam 1 15%</th>
<th>Exam 2 20%</th>
<th>Exam 3 20%</th>
<th>Final 40%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade scale:</td>
<td>90-100% A-, A</td>
<td>80-89% B-, B, B+</td>
<td>70-79% C-, C, C+</td>
<td>63-69% D, D+</td>
<td>&lt; 63% F</td>
</tr>
</tbody>
</table>

Exams: There will be three mid-term exams and a final exam. All exams will be closed-book. An equation sheet will be provided to use during the exam. You may request specific equations or diagrams to be included on the equation sheet. (Please make requests early; day-before-the-exam requests will probably be ignored.) Reference material (tables, charts, etc.) will be provided with each exam. All exams may be comprehensive, covering all the material covered in the course to date. You should definitely bring a calculator.

Quizzes: A quiz will be given at the end of class one week after homework is assigned. Each quiz will be modeled after the current homework assignment. Quizzes will be closed book and closed notes. You should bring a calculator.

Scientific calculators are recommended; cell phones & other wireless devices are prohibited!
Homework: Homework will be assigned weekly and provides the best way of keeping up with the course material. Answers to most of the problems will be provided, but not the solutions. Homework assignments are not collected or scored, but the weekly quizzes will cover material from the homework. *You should start the homework assignments the day they are posted.* This material cannot be learned “the night before the quiz.” I encourage you to study in groups, but be sure you understand the material since exams and quizzes require your individual performance.

Grading Policy: Attendance does not figure into your course grade, but quizzes and exams will be based on the homework, textbook readings, and lectures. There is no make-up for missed quizzes and exams, except in cases of serious illness (a physician’s note will be required), accident, personal tragedy, or University sanctioned events (see the University Manual section 8.51). If an unforeseen situation causes you to miss a quiz or exam, contact me via voice mail or e-mail before the end of that day’s class.

Time Commitment: The expected weekly time commitment for this course is three hours of study time for every hour of class time. Hence, you should expect to spend an average of 7.5 hours per week outside of class to study the course materials and complete the assignments.

Important Dates:

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 28</td>
<td>Last day for “Open Add”</td>
</tr>
<tr>
<td>February 4</td>
<td>Last day to add courses via permission number</td>
</tr>
<tr>
<td>February 12</td>
<td>Last day to drop courses without a W on transcript</td>
</tr>
<tr>
<td>February 14</td>
<td>Exam 1</td>
</tr>
<tr>
<td>March 4</td>
<td>Last day to drop courses – W will appear on transcript</td>
</tr>
<tr>
<td>March 9–13</td>
<td>no class, Spring Break</td>
</tr>
<tr>
<td>March 18</td>
<td>Exam 2</td>
</tr>
<tr>
<td>April 15</td>
<td>Exam 3</td>
</tr>
<tr>
<td>April 27</td>
<td>Last class meeting</td>
</tr>
<tr>
<td>May 6</td>
<td>Final Exam, 8-11 am</td>
</tr>

Reading Schedule: week 1 Chapt. 1, Appendices A & B

Chapt. 2, Chapt. 3

weeks 2–4 Chapt. 4 (skip 4.12), Chapt. 5

week 5 Chapt. 12, Chapt. 13 sections 1–5

week 6 Chapt. 13 sections 6–10, 16

Chapt. 14 sections 1–2

weeks 7–9 Chapt. 14 sections 3–4

week 10 Chapt. 14 section 11

week 11 Chapt. 14 section 12

week 12 Chapt. 14 sections 6–10

week 13 Chapt. 14 section 13

(Chapters 12–14 in the 3rd and 4th editions are 6–8 in the 2nd edition)
Academic Integrity: Cheating and plagiarism will be handled according to the University Manual sections 8.27.10 to 8.27.22 (see web.uri.edu/manual/chapter-8/chapter-8-2). The penalty for cheating or plagiarism can range from a zero score on the assignment to a failing grade for the course.

Accommodations: Any student with a documented disability should contact me early in the semester so that we can make reasonable accommodations to support your success in this course. You should also contact Disability Services for Students, Office of Student Life, 302 Memorial Union, 874-2098.

ABET Program Outcomes covered in this course:

A. an ability to apply knowledge of mathematics, science, and engineering;
E. an ability to identify, formulate and solve engineering problems;
L. an ability to critically evaluate alternate assumptions, approaches, procedures, and trade-offs related to engineering problems.

ABET Professional Component contribution of this course:

Engineering Science: 3 credit hours
